

LOGOWORX

Digital artwork is essential for quality branding.

This is needed to produce high definition film work, used in screen-printing & Pad printing. Also digital laser engraving.

The best files:

Vector files; (editable)
CDR (Corel Draw Format)
EPS (Encapsulated Postscript File)

Our preferred software

PC / Corel Draw X3

Files that is not suitable

FH Freehand Files
AI Adobe Illustrator file format
PDF Portable Document File
TIFF, JPEG, BMP, GIF, DOC (ms word)

These files will need reworked, text converted to curves/paths or redrawn in correct format at further expense. Do not use these files if possible.

Redrawing, Reworking Artwork
